Heavy duty pull tight plastic seal

Model:OS7088

Material
[]Metal lock mechanism: stainless steel

Material
[]The cover is made with especial fragile material

The cover is made with fragile material.It is closed by hot-melting. NOT welding.

Once try to prize it up, it must be broken. If so ,nobody dare to prize it up.

of course, if the client don't like this.we can made it with PP like seal body.
